

Ditch the Two Parties of Wall Street

All kinds of people are out on the streets to take back what is rightfully ours – our homes, schools, transportation systems, health care, and all public spaces. Our slogan is: “We Are The 99%”, because the 1% control an ever-growing share of the wealth, leaving the rest of us with fewer and fewer crumbs. They own the government, and call out their cops whenever they feel threatened.

We Need Our Own Party

The 1% control the political system through both the Democratic and Republican Parties. If we want to take control of our own government, we need our own political party. We have a working-class party on the ballot in California, the Peace and Freedom Party. The Peace and Freedom Party stands for social ownership and democratic management of industry, financial institutions and natural resources.
