

REGISTER PEACE AND FREEDOM

It's time to change society's direction — away from war, prisons, cutbacks and takebacks — the bipartisan program of the two big business parties

Let's get what we need:

WORK, NOT DRUDGERY

Double the minimum wage

Shorten the work week with no loss in pay

SCHOOLS, NOT JAILS

Provide free public education from preschool to graduate school

Restore affirmative action and bilingual education

REHABILITATION, NOT PUNISHMENT

Abolish the death penalty and "three strikes"

Legalize marijuana and free the prisoners of the phony "war on drugs"

HUMAN NEEDS, NOT CORPORATE GREED

Build a single system of health care for all, without corporate profits

Stop clear-cutting and environmental destruction

HOMES, NOT BOMBS

Close all military bases in foreign countries

Totally disarm every nuclear weapon

Use the "peace dividend" to fund housing, health care and schools

The fight for the needs of working-class families and for defense of the environment must replace concern about profits and the stock market. For 30 years, the Peace and Freedom Party has stood for a new society based on democracy, cooperation and sharing.

The Peace & Freedom Party needs to increase its registration to 86,212 by December 2001 to get back on the ballot for the 2002 election.

You can register to vote if you are a U.S. citizen, you live in California, you are not in prison or on parole for a felony, and you will be 18 years old by the day of the next election. If your registration form doesn't have a box to check for Peace & Freedom, check "Other" and write "Peace & Freedom" on the line.
